

- 1) CDPH Comment 45, "Section 3.6.5.1 Surface Soil Sample Collection, page 3-21.  
Please retain all soil samples for CDPH-EMB confirmatory analysis."

Navy response, **"The text was updated to state that soil samples will be retained, for possible CDPH-EMB confirmatory analysis, until the contractor for Parcel G soil work demobilizes from the site."**

Please note CDPH-EMB does not analyze confirmatory soil samples until it has received a Draft Final Status Survey to review. Since the contractor may have already completed the work for this contract and decamped; CDPH-EMB believes all soil samples should be archived and maintained by the Navy until the Final Status Survey for Parcel G is finalized. Also is there a Navy policy for sample retention? If so, what is that policy?

- 2) CDPH Comment 54 (e) "Please provide a Class II MARSSIM buffer survey around where Class I MARSSIM surveys performed."

Navy response, **"See response to USEPA General Comment 15c."**

USEPA General Comment 15(c) does not address question regarding buffer zones.  
Please address
